

**XVI. International
Quality, Innovation and Knowledge Conference
January 28-29, 2022
Sydney, Australia**

16. International Quality, Innovation and Knowledge is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Economics and Management Engineering.

Today more than ever before it is extremely important to stay abreast of the changing landscapes of the Economics and Management Engineering world. The multidisciplinary focus of this event aims to bring together pioneers and aficionados from different fields with expertise in various areas of Economics and Management Engineering, providing an excellent opportunity to participate in the international exchange of ideas, current strategies, concepts and best practices, collaborations, and cooperation, offering a diverse perspective and more exciting experiences.

The program includes time allocated for networking, peer-to-peer discussions, and exploring the host city.

We invite the participation of leading academic, scientific, researchers and scholars in the domain of interest from around the world to submit your research contribution relating to all aspects of:

- Case studies of innovative business practices
- Contributions on the role of government
- Studies of innovation and new product development
- Skills, training and development of human capital
- Approaches to the provision of infrastructure
- Innovations in knowledge management in organisations
- The uses of quality and environmental management systems
- Quality in services, public and private
- Business process redesign and improvement
- Supply chain management and supply chain network topology
- Finance management and capital raising
- Quality and innovation in higher education
- Information and technology and the internet
- Business-to-business and B2B applications
- The role of quality, innovation and knowledge in achieving environmental sustainability
