

Danleco

Danleco LLC

International Agricultural Commodity Supply

Quality born from the earth

Reliable solutions for your business – from field to port

About the Company

Danleco LLC is a dynamic exporter and distributor from the Republic of Tatarstan – the economic heart of Russia.

We supply:

Dairy products – from reliable Russian producers

Agro export – grains, pulses, oilseeds, and niche crops for the markets of China, MENA, and the EU

Direct contracts, strict quality control, and our own loading facilities.

Effective cooperation with the Russian Export Centre, the Ministry of Agriculture, Agroexport, and Rosselkhozadzor.

Flexibility in delivery and payment terms.

End-to-end logistics expertise. Sea & rail. Containers, hoppers, flexitanks.

1. Brown Flaxseed

Origin: Tatarstan, Bashkortostan, Udmurtia

MOQ: 1,000 mt

Packing: bulk / big bags

Parameter	Value
Moisture	≤ 10%
Foreign matter	≤ 2%
Oil content (dry basis)	≥ 42%

Golden flaxseed also available upon request.

2. Barley

Type: Feed barley. Malting barley – available upon request.

MOQ: 1,000 mt

Packing: bulk / big bags

Parameter	Value
Moisture	≤ 14%
Test weight	≥ 620 g/l
Foreign matter	≤ 2%
Other grains	≤ 5%

3. Wheat

Type: Food / feed / milling wheat – according to buyer’s request.

MOQ: 1,000 mt

Packing: bulk / big bags

Parameter	Value
Moisture	≤ 14%
Protein	≥ 10.5% (food) / ≥ 9.5% (feed)
Gluten	≥ 23%
Foreign matter	≤ 2%
Test weight	≥ 740 g/l

4. Peas

Type: Yellow.

Origin: Tatarstan, Bashkortostan, Udmurtia

MOQ: 1,000 mt

Packing: bulk / big bags

Parameter	Value
Moisture	≤ 14%
Foreign matter	≤ 2.0%

5. Oats

Type: Feed oats. High test weight, low husk content.

MOQ: 500 mt

Parameter	Value
Moisture	≤ 14%
Test weight	≥ 500 g/l
Foreign matter	≤ 2%
Husked kernels	≤ 5%

6. Buckwheat

Type: Food grade, raw material for groats.

MOQ: 200 mt

Parameter	Value
Moisture	≤ 14%
Foreign matter	≤ 1.5%
Unhulled kernels	≤ 3%
Broken kernels	≤ 5%

7. Red & Green Lentils

High protein, minimal impurities.

MOQ: 200 mt

Parameter	Value
Moisture	≤ 14%
Impurities	≤ 1%
Damaged kernels	≤ 2%
Infestation	not allowed

8. Chickpeas

Large calibre.
MOQ: 200 mt

Parameter	Value
Moisture	≤ 14%
Impurities	≤ 1%
Broken kernels	≤ 5%
Infestation	not allowed

9. Coriander Seed

Essential oil crop for the food industry and processing.
 MOQ: 100 mt

Parameter	Value
Moisture	≤ 12%
Essential oil	≥ 0.5%
Impurities	≤ 2.0%
Damaged seeds	≤ 3%

10. Sainfoin

Perennial forage crop, alternative to alfalfa. High nutritional value, drought resistant. Supplied as seeds.

MOQ: on request

Packing: big bags / bags

Parameter	Value
Germination	≥ 80%
Moisture	≤ 12%
Impurities	≤ 3%

Used for pasture restoration and haymaking.

11. Rapeseed Oil

Type: Crude, unrefined. For food industry and technical purposes.

MOQ: 100 mt

Packing: flexi-tank

Parameter	Value
Acid value	≤ 2.0 mg KOH/g
Peroxide value	≤ 5.0 mmol/kg
Moisture and volatiles	≤ 0.2%
Phosphorus	≤ 300 ppm

12. Sunflower Oil

Type: Crude unrefined / refined.

MOQ: 100 mt

Packing: flexi-tank

Parameter	Value
Acid value	≤ 1.5 mg KOH/g
Peroxide value	≤ 4.0 mmol/kg
Moisture and volatiles	≤ 0.1%

13. Used Cooking Oil (UCO)

Green feedstock for next-generation biofuels.

→ SAF (Sustainable Aviation Fuel)

→ UCOME (2nd generation biodiesel)

MOQ: 25 mt

Packing: flexi-tank

Parameter	Value
Fat content	≥ 98%
Total impurities	≤ 1%
Moisture	≤ 0.5%
Acid value	≤ 25 mg KOH/g

14. Sugar Beet Pulp Pellets

Gold standard for cattle feeding. Alternative to hay.

MOQ: 1,620 mt

Parameter	Value
Moisture	≤ 14%
Crude protein	≥ 9%
Crude fiber	≤ 18%
Ash	≤ 5%

15. Rapeseed Meal

High-protein supplement for compound feed (cattle, pigs, poultry). Excellent price alternative to soybean meal.

MOQ: 500 mt

Packing: bulk / big bags

Parameter	Value
Moisture	≤ 12%
Crude protein	≥ 34%
Crude fiber	≤ 12%
Fat	≤ 3%

16. Feed Flour

Cost-effective protein source for compound feed (poultry, pigs).

Parameter	Value
Moisture	$\leq 15\%$
Crude protein	$\geq 12\%$
Fiber	$\leq 10\%$
Ash	$\leq 4\%$
Impurities	$\leq 1\%$

17. Wheat Bran

Natural fibre + prebiotic.

18. Distillers Dried Grains with Solubles (DDGS)

Alternative to soybean meal. For cattle, pigs, poultry.

Parameter	Value
Moisture	≤ 12%
Protein	≥ 20%
Fat	≤ 8%
Ash	≤ 6%
Fiber	≤ 10%

19. Wheat Baking Flour

Grade: Top / first grade.

Parameter	Value
Moisture	≤ 15.0%
Ash	≤ 0.55%
Wet gluten	≥ 28%
Protein	≥ 10.3%
Impurities	≤ 0.05%

20. White Sugar

Grade: ICUMSA \leq 45. No impurities.

MOQ: 500 mt

Parameter	Value
Sucrose	\geq 99.75%
Moisture	\leq 0.10%
Ash	\leq 0.04%
Colour	\leq 45 ICUMSA
Impurities	none

21. Whey Powder

By-product of cheese making. Used in the food industry and animal feed. Supplied as powder.

MOQ: on request

Packing: 25 kg bags

Parameter	Value
Moisture	≤ 5%
Protein	≥ 10%
Lactose	≥ 70%
Fat	≤ 2%
Acidity	≤ 100°T
