Visa Issuance
KITA will provide the necessary service for issuance of visa such as invitation for buyer (Iranian importing companies). For seller (Iranian exporting companies), if the Embassy can guarantee the business person, then, it is better to discuss regarding the issuance of visa with the Embassy. ‘

Benefits for Buyer (Iranian importing companies)

If the buyer (Iranian importing companies) visits Korea for this event, the airfare (limit \$1100) as well as hotel accommodation will be supported.
*This benefit will be supported only after buyer’s matching and the airfare fee can be increased under consideration of buyer company’s turnover/size.

Number of participating Buyer

There is no limitation in number of companies by country but we are planning to invite 10 companies offline/10 companies online from the Middle East. But the number of buyers from the region can be changed in the process of organizing event.

Items Limitation

There is no limitation for the item as it is a total item consultation. But there are many Korean consumer goods and it will be difficult to match if the item is too distinct.

Broucher

Attached file is a broucher for the foreign buyers.
